6. **OPINION**

6.1 Whether the Company may provide certain business activities, as those are being disclosed and analyzed in Clause 5 ‘Background and Statement of Facts’ without any limitation from the Company’s Memorandum and Articles of Association.

On the basis of the Assumptions set out in Clause 4 above and subject to the Qualifications set out below in Clause 7 and subject to any matter not disclosed to us which would affect the conclusions set out below, we are of the following opinion:

i. The Company is a Cyprus Limited Liability Company, incorporated on the 23.02.2016 under the laws or the Republic of Cyprus with registration number HE 352653. Please refer to Annex 1 Certificate of Incorporation.

ii. The Company’s registered office is at Arch. Makariou III, Melford Tower, Floor 1, Flat 106 Limassol, 3027, Cyprus and according to the extract of the Registrar of Companies and Official Receiver of Cyprus the date of execution of this legal opinion, the company was ACTIVE. Please refer to Annex 2 Registered Office and Annex 3 Extract from Registrar of Companies.

iii. Having reviewed the Company’s Memorandum & Articles of Association, as this was provided by the Company, we are of the opinion that nothing in the Company’s Memorandum and Articles of Association prohibits the Company from engaging in the business activities as described in Clause 5 above. Please refer to Annex 4 Memorandum and Articles of Incorporation.
6.2 Whether the Company may provide certain business activities, as those are being disclosed and analysed in Clause 5 'Background and Statement of Facts' legally and freely and without any type of license/authorization from any Authority in the Republic of Cyprus.

On the basis of the Assumptions set out in Clause 4 above and subject to the Qualifications set out below in Clause 7 and subject to any matter not disclosed to us which would affect the conclusions set out below, we are of the following opinion:

i. Having reviewed the Terms and Conditions (Annex 5) which outline the subject matter activities of the company, we are of the opinion that the respective activities are not prohibited under the laws of the Republic.

ii. The establishment of the savings account which will only contain certain crypto currencies/virtual currencies has exclude the participation of fiat currencies and in extend any resemblance to savings accounts as used by the credit institutions.

iii. It is noted that there is no single global definition in the term virtual currency and crypto currency. According to a legal study requested by the European Parliament's Special Committee on Financial Crimes, Tax Evasion and Tax Avoidance\(^1\) in July 2018, the main conclusion that can be drawn, is that there is no generally accepted definition of the term Cryptocurrencies available in the regulatory space. Even more, most policy makers have refrained from defining the term altogether.

iv. However, for the purposes of this legal opinion, we make reference to the suggestion of the European Banking Authority (EBA) to refer to Cryptocurrencies as virtual currencies, which it defines as digital representations of value that are neither issued by a central bank or public authority nor necessarily attached to a fiat currency but are used by natural or legal persons as a means of exchange and can be transferred, stored or traded electronically\(^2\).

v. Currently, the Republic of Cyprus and the position of the EU Authorities, (including the EU Parliament) have not prohibited any transactions which involve virtual/crypto currencies despite the issuance of warnings relating to the trading and investing in Initial Coin Offering Schemes (ICO's). The above schemes relate to the virtual/crypto currency and the token as such and not derivatives on crypto currencies.

\(^2\) EBA Opinion on Virtual Currencies 4th, July 2014 (p.11)
vi. We wish to note that derivatives and other financial instruments, for example Contracts for Difference (i.e. CFD's) relating to virtual currencies are being considered as financial assets, traded and tradable in online exchanges which under certain conditions, are subject to certain market rules imposed by the national competent authorities under the supervision of ESMA (European Securities and Markets Authority). Having clarified that and based on the information provided by the Company, the Company makes absolutely no use of derivatives or any CFD's on virtual currencies which relate to the financial instruments.

vii. On another note, the Cyprus Securities and Exchange Commission in published Circular No 244 dated 13 October 2017 states, among others, that there is no specific EU regulatory framework governing the trading on virtual currencies and/or trading on CFDs relating to virtual currencies and it outlines a number of conditions on the trading of virtual currencies and on CFD's on virtual currencies. The circular is addressed to Cyprus Investment Firms which provide certain services as per the Law 87(I)/2017. It is clarified that the Company does not provide any services which fall under the scope of the Law 87(I)/2017 and does not operate as a Cyprus investment firm nor as a banking institution as the services offered by the Company do not fall under the scope of the Business of Credit Institutions Laws 2009-2019.

viii. We are of the opinion that the services as disclosed in Clause 5 ‘Background and Statement of Facts and in accordance to the Terms and Conditions of Annex 5, with regard to the reward scheme which involves only crypto-virtual currencies, are not prohibited under the laws of the Republic of Cyprus and are not subject to any licensing and/or authorization procedures in the Republic of Cyprus, since no derivatives, fiat currencies or financial instruments are being traded and no services which fall under the scope of the business activities of the Credit Institutions are being offered.
